

CAMERON PREASMYER

Crozet, VA | (661) 445-3240 | spc6uz@virginia.edu | www.linkedin.com/in/preasmyer | preasmyer.github.io/

SUMMARY

Marine Corps **Veteran** enrolled at the **University of Virginia** pursuing a **Master's** in **Data Science**. Adept in multiple programming languages including **Python**, **R**, and **SQL**. Applied skills in many **Machine Learning** areas to include **Deep Learning**, **Bayesian Machine Learning**, **Reinforcement Learning**, **Statistical Learning**, and **Data Mining**. Possesses a high degree of competence in **Statistics**, **Mathematics**, and **Computer Science** through rigorous STEM programs at top-ranked institutions, as well as Research and Instructional Assistantships. Developed critical soft skills through over a decade of diverse professional experience.

EDUCATION

University of Virginia	Charlottesville, VA
Master of Science in Data Science	Aug 2024 - May 2026
University of California, San Diego	San Diego, CA
Bachelor of Science in Business Economics	Sep 2021 - Sep 2023

ACADEMIC RESEARCH & EXTRACURRICULARS

Instructional Assistant - Bayesian Machine Learning, Statistical Learning	Charlottesville, VA
University of Virginia, School of Data Science (SDS)	May 2025 - Present

- Assisted in the instruction of two graduate machine learning courses at UVA's School of Data Science.
- Graded assignments, held weekly office hours and led tutoring sessions for over 75 enrolled MSDS students.

Research Assistant - Machine Learning for Biomarkers in Melanoma and Renal Cancer	Charlottesville, VA
University of Virginia - Publication Pending	Jan 2025 - Present

- Assisted in the creation of neural networks to analyze image results of indicator protein samples from healthcare collaborators overseas to quantify their presence with greater relative accuracy.
- Built and validated machine learning algorithms to discern Melanoma cases from non-Melanoma cases, as well as to predict the potential for metastasis based on the magnitude of indicator proteins present.

Research Assistant - Data Flow Analysis of Biomechanical Data in Collegiate Sports	Charlottesville, VA
University of Virginia - Publication Pending	Sep 2024 - Present

- Investigated the end-to-end flow of performance data derived from the biomechanical equipment worn by UVA athletes to identify inconsistencies or inefficiencies in data interpretability.
- Scheduled, led, and facilitated interviews with coaches and representatives of biotechnology data firms to identify target data, end goals, and data collection methods.

Founder & President - Student Advisory Board	Charlottesville, VA
University of Virginia, School of Data Science	Oct 2024 - Present

- Worked closely with UVA and SDS faculty to establish the Student Advisory Board as a recognized Special Status Organization.
- Regularly surveyed over 200 students to identify consensus on improvement areas within the School of Data Science, and developed programs to improve academic experience accordingly.
- Established extracurricular programs such as workshops for academic writing and publishing, frameworks to support student-run Data Science projects, workshops teaching responsible Large Language Model (LLM) use, and created an award system for high achieving students at the School of Data Science.

MSDS Student Ambassador	Charlottesville, VA
University of Virginia, School of Data Science	Sep 2024 - Present

- Served as a UVA SDS Ambassador for hundreds of prospective and admitted students of the MSDS Program by providing 1-on-1 information sessions, presenting at live open-house events, and assisting in marketing campaigns.
- Served as a Peer-Tutor for the SDS Linear Algebra and Integral Calculus bootcamp courses for matriculated students who lack these prerequisites.
- Co-Developed and tested new Python and R screening assessments for applicants as a new entry requirement for the MSDS Program.

TECHNICAL SKILLS

> Data

- ❖ Data Cleaning & Wrangling, Exploratory Data Analysis, Visualization, Database Design & Query, Algorithmic Complexity & Design, Graph Theory, Parallel Computing.

> Machine Learning

- ❖ **Bayesian Machine Learning** - Bayesian inference, Conjugate Prior Probabilities, Naive Bayes Classifiers, Expectation Maximization, Markov Chain Monte Carlo (Stan), Variational Inference, Hierarchical Clustering (Stan), Hidden Markov Models, Finite Mixture Models.
- ❖ **Statistical Learning** - Random Forest, XGBoost, LightGBM, Boosting, Bagging, LDA, QDA, SVM's, Multinomial logistic Regression, K-Means Clustering, Hierarchical Clustering, Isolation Forests, Generalized Linear Models (GLM).
- ❖ **Deep Learning** - Sequence Modeling, Generated Learning, Instance-based Learning, Convolutional Neural Networks.
- ❖ **Reinforcement Learning** - Markov Decision Processes, Value Functions, Policy Gradients, Q-Learning/Deep Q-Learning, k-Armed Bandits.

> Programming

- ❖ **R** (Intermediate - Advanced)
- ❖ **Python** (Intermediate)
- ❖ **SQL** (Intermediate)

> Mathematics

- ❖ Real Analysis, Single & Multivariable Calculus, Differential Equations, Linear Algebra, Discrete Math.

WORK EXPERIENCE

Iconix Critical Solutions, LLC

Manassass, VA

QA/QC Engineer III - Site Lead

Sep 2023 – Aug 2024

- Led coordination meetings between customer representatives, engineers of record, and general contractors to develop and implement agile quality assurance and control methods which maximize the lifespan of electrical equipment in data centers.
- Trained and directed a team of engineers on site policies and procedures, and created an effective schedule of work that enabled our team to finish multiple projects on time and as close to the contracted budget as possible.
- Participated in a company-wide 3x growth initiative by screening and interviewing candidates alongside the program director. Served as a mentor to new members to ensure they had all the tools they needed to grow within the organization.

Siemens Smart Infrastructure

Hayward, CA

Control Systems Specialist

Dec 2018 – Feb 2020

- Ran routine status reports to review system operation and participated in final inspection and testing in regard to customer acceptance and the Contract Data Requirements List (CDRL).
- Assisted with manual and automated data back-up from servers, as well as the troubleshooting of inconsistencies in the functions of operation.

United States Marine Corps

Various Locations, USA

SHF Satellite Communications Operator/Maintainer; E-5 Sergeant

Dec 2013 – Dec 2018

- Planned and executed 10+ Satellite Communications operations spanned worldwide in order to establish and maintain positive communications in support of both ground and air units.
- Orchestrated and conducted training presentations for audiences of 300+ Marines and Sailors.
- Maintained serviceability and accountability for communications and related equipment valued in excess of \$3M with 100 percent accountability.

ADDITIONAL

Skills: Microsoft Office Suite & 365, Asset Management, Linux, PowerBI, Tableau, MLOps Software, JIRA, Project Management, Strategic Communications, Collaboration & Team Building, Client Relations Management, Conflict Resolution, Agile Methodologies, Financial Analysis & Optimization, Process Improvement, Risk Management, Virtual & In-Person Meeting Facilitation & Support, Multi-Disciplinary Team Management

Certifications: CITI IRB-SBS Researcher, QuantGates Introduction to Quantum Computing
